Making the world a safer place
WHAT WE DO

We provide communications, cyber and intelligence solutions to the U.S. DoD and coalition partners in the aerospace, defense, and intelligence communities. Customers rely on us for rapid-response, secure technology solutions and subject-matter expertise to support mission-critical operations.

“Our success and continued growth are a direct result of our dedicated team and their passion for helping our customers and American warfighters.”

ALYSSA CARSON | Founder & CEO, Envistacom
About Us

Established in 2011, Envistacom is a trusted partner in protecting military, civilians and critical infrastructure around the world through communications, cyber and intelligence services and solutions. Envistacom is a privately held, Disadvantaged Women Owned Small Business (DWOSB).

Focused on the mission at hand, our core values guide us every step of the way:

INTEGRITY
RESULTS
CHARACTER
POSITIVE IMPACT
ACCOUNTABILITY
Solutions & Services
MOTIVATED BY MISSION SUCCESS

Our portfolio of solutions is constantly evolving to suit the DoD’s requirements as they face new modernization and interoperability challenges. Our service model is designed to deliver agile, rapid-response, and secure customized solutions.

COMMUNICATIONS
We design, deploy, and maintain network infrastructures and communication technologies, ensuring the reliable and secure transmission of sensitive information.

CYBER
We navigate complex cyber challenges with a unique blend of strategy and technology, strengthening cyber resilience and protecting critical infrastructure from security breaches.

INTELLIGENCE
We offer strategic and operational analysis of existing and emerging global threats, equipping warfighters with mission-critical information to achieve success.
Envistacom is an end-to-end network solutions provider for wired, wireless and satellite communications. We design, integrate, deploy, secure, operate and maintain networks to ensure rapid, secure delivery of critical information.

CAPABILITIES & SOLUTIONS

SYSTEM DESIGN & INTEGRATION
- Satellite Ground Terminals
  » STT-MWO (AN/TSC-185C [V])
  » Phoenix (AN/TSC-156E)
- Mobile Gateway
- DKET
- RHN/THN
- Teleports
- Cellular Systems
- System Integration
- Field and Factory Upgrades
- End of Life (EOL) monitoring & replacement
- ARSTRAT certification
- Sparing

MANAGED SERVICES
- Field Service Representative
- Logistics Support
- Subcontractor Management
- Integrated Training (inhouse and remote)
- Validation and Integration
- Production Manufacturing
- System Development
- Production, deployment, and installation
- Sustainment and Support

NETWORK TECHNOLOGIES
- Cloud Network design service
- Value Added Reseller (VAR) of Network equipment
- Network/IT specialists
Seasoned experts apply offensive and defensive strategies to strengthen resilience, speed compliance and protect critical infrastructure.

**CAPABILITIES & SOLUTIONS**

**DEFENSIVE CYBERSPACE OPERATIONS**
- Cybersecurity
- Assessment and testing services
- System security engineering
- Threat and vulnerability management
- Risk Management Framework (RMF)
- Event monitoring and incident response
- Penetration testing
- Commercial Solutions for Classified (CSfC) Trusted Integrator (TI)

**Military utility assessments**
- Requirements development
- Cyber Tabletop (CTT)

**CYBER INTELLIGENCE AND SUPPORT**
- OSINT
- Cyber ISR
- Operational Preparation of the Environment (OPE)
- Cyber Operations Planning

**RESEARCH, DEVELOPMENT, TESTING AND EVALUATION**
- Electronic warfare
- Insider threat
- Offensive and defensive cyber
- Operational test and evaluation
- Live-fire test
- Joint Capability Technology Demonstrations (JTCD)

**INFORMATION OPERATIONS**
- Information Operations Planning
- Joint Service Training & Support
- Advancing Sensitive and Classified Capabilities
- Assistance in policy and doctrine development
Envistacom provides essential mission support with full-spectrum intelligence that agencies can act on.

CAPABILITIES & SOLUTIONS

INTELLIGENCE
• Identity Intelligence (I2)/ Biometrics/Counter Improvised Explosive Device (C-IED) Support
• Intelligence, Surveillance, and Reconnaissance (ISR): Sensor operations/Microelectronics
• Targeting
• HUMINT/SIGINT/GEOINT/MASINT/ OSINT
• Cyber/Space/Infrastructure
• Processing, Exploitation & Dissemination (PED): AI/ML
• Forensics/Exploitation, Document and Media Exploitation
• Counter-Proliferation/CWMD
• All Source Intelligence

“We must strengthen our cybersecurity, safeguard our critical infrastructure, and turn the ongoing technological revolution from a threat to an advantage by integrating new technologies to improve the capacity and superiority of our intelligence into the future.”

AVRIL HAINES, Director of National Intelligence 2021

More Than $137B IDIQ Contract Vehicles

OUR CUSTOMERS

Envistacom can quickly provide a contractual solution to meet our customers’ needs. Our customers are pleased with the ease and flexibility of utilizing these contracts, providing long-term solutions for their needs and requirements.

PARTNERSHIPS

Envistacom has established partnerships and teaming agreements with multiple companies that enhance and reinforce our commitment to provide best-in-class solutions for our customers and support the growth within the communications, cyber and intelligence markets.

“Near peer competitors are posturing themselves, and threats to the United States’ global advantage are growing – nowhere is this challenge more manifest than in cyberspace”

General Paul M. Nakasone, U.S. Army
Invested in Our People

Envistacom employs a deep bench of highly respected industry and subject matter experts. We make it our mission to hire the best people, who understand our customers’ missions and are passionate about helping solve their problems.

EXPLORE JOB OPPORTUNITIES AT ENVISTACOM.COM/CAREERS

“What sets Envistacom apart from the rest of our industry is how much we focus on our people. We take care of our employees, so they can take care of our customers.” Alyssa Carson
Invested in Our Community

Envistacom’s community outreach program allows employees to get involved and give back to our local communities. We proudly support a number of charities aimed at two key areas; at-risk youth and active duty military, veterans and their families.
